Don't think you'll need this today but just in case. Surgery is expected around 11 so I'll have plenty of free time if you have questions.

I've updated the FY12 budget and FY11 looks reasonably close but I can't get into the warehouse to verify a couple of things. I'm attaching two files – one with the bare bones comparison and one with the detailed FY12 budget attached which shows all of the people and the accounts. I don't think Tom's numbers are necessarily inaccurate and I'd be comfortable sending them.

Linda brought it to my attention last week. Bristol DA wants this information and I told Linda that I would send it out today. That said it needs to be accurate so I will wait for you

When do you need this? I can't find Tom's backup and want to validate the FY11 numbers.

Hmh, I stand corrected. It does include the Coverdell award but it looks like the salaries haven't been updated. I'll go back to the spending plan and grab them and update the spreadsheet. Sorry I rushed ahead.

So should the fringe only include 1.94% of the payroll?

This is all state funding. There is some federal funding from the Coverdell grant that we get through an ISA with the MA State Police but that's not been included here. That runs 10/01 – 09/30 and the newest application was for \$65K. Unfortunately there's a very high probability that this will end next year as a result of policy change to focus more on research and not on forensic testing.
